Subject: RTI Biologics® Completes Acquisition of Pioneer® Surgical Technology

Combined Company Name Is RTI Surgical, Inc.

To: RTI Donor Services Recovery Agencies

From: Roger Rose, President, RTI Donor Services; Executive Vice President, North American Sales and Marketing, RTI Biologics

Beverly Bliss, Vice President, RTI Donor Services

As you may have seen in our press release earlier today (attached), RTI Biologics announced that the acquisition of Pioneer® Surgical Technology is complete. RTI's acquisition of Pioneer is strongly aligned with its long-term strategic plan and pushes the company further toward its goals.

Effective immediately, the new name of the company is RTI Surgical Inc. The company's worldwide headquarters will remain in Alachua, Fla.

The transaction enhances RTI's existing core competency in biologics processing with the addition of Pioneer's core competency in metals and synthetics. With this acquisition, RTI Surgical is now a stronger organization, enabling RTI Donor Services to continue providing the donation community with the highest level of customer service with a focus on maximizing the gift of donation. Your current relationship with RTI Donor Services will not change as a result of today's announcement.

This includes maintaining our commitment to providing safe implants for recipients as well as offering education and support programs to donor families and the donation community. Allograft tissue remains a very important part of RTI Surgical's mission, and this acquisition in no way diminishes the organization's commitment to accepting donated human tissues and providing biologic solutions for patients in need. While the platform of RTI's surgical implant options will expand, the majority of the combined company's business will continue to be comprised of allograft implants.

In closing, we would like to thank you for your ongoing support as RTI embarks on this exciting new phase. Additional information also will be available at RTI's special acquisition web portal at http://www.rtix.com/RTI-Pioneer.

In the meantime, if you have any questions, please do not hesitate to contact your area director.

About RTI Surgical Inc.

RTI Surgical is a leading global surgical implant company providing surgeons with safe biologic, metal and synthetic implants. Committed to advancing science, safety and innovation, RTI's implants are used in sports medicine, general surgery, spine, orthopedic, trauma and cardiothoracic procedures and are distributed in more than 47 countries. RTI is headquartered in Alachua, Fla., and has four manufacturing facilities throughout the U.S. and Europe. RTI is accredited in the U.S. by the American Association of Tissue Banks and is a member of Advamed. For more information, please visit www.rtisurgical.com.

Forward Looking Statements

This communication contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements are based on management's current expectations, estimates and projections about our industry, our management's beliefs and certain assumptions made by our management. Words such as “anticipates,” “expects,” “intends,” “plans,” “believes,” “seeks,” “estimates,” variations of such words and similar expressions are intended to identify such forward-looking statements.
